NFAC-DDS&T Presentation

Using the current situation in ^{a foreign country} Lebanon as a case study, the President will be briefed on the intelligence production process. The various collection assets will be identified and then related to the analysis that goes into the production of both current intelligence (PDB, NID, spot reports) and longer-term evaluations (such as the ^{Recent} ~~8 August 1978~~ SNIE, ^{on this same country} Lebanon: Prospects for Expanded Conflict).
